

Professional Remodeler Magazine America's Top Remodelers List

For the last few years, Professional Remodeler magazine has published a list of the nation's largest home improvement companies. As you already may be aware, Keyner Construction is listed on the 2014 America's Top Remodelers list that appeared in our November issue. Making this list means that your firm is ranked among the nation's top home improvement companies. This is truly a distinction that sets Keyner Construction apart from the crowd. In your local market, there are very few companies that can claim this achievement. On behalf of the entire Professional Remodeler team, I extend our congratulations!

KEYNER CONSTRUCTION Honored with America's Top Remodelers Designation

Hans Keyner, owner of Keyner Construction, a local firm that remodels as well as builds new homes, specializing in remodeling kitchens, bathrooms, building outdoor kitchens/rooms as well as additions recently was included in America's Top Remodelers for 2014 by Professional Remodeler magazine which has a circulation of nearly 77,000 per month. There were 245 companies across the US included on the list, up from 231 last year. 2014 is the fourth year the list has been compiled and to date Hans Keyner is the only Remodeler in Amarillo to make the list. In 2014, eighteen Texas firms made the cut with ten in the DFW metro area, four in the Austin/San Antonio area, two in the Houston area, one in Lubbock and our very own Hans Keyner of Keyner Construction in Amarillo.

The America's Top Remodeler award follows on the heels of the Big50 winners being featured in the May issue of Remodeling magazine, a national trade publication read by more than 80,000 professional remodeling contractors that named Hans Keyner as a lifetime member of the Big50. Remodeling editors, columnists and industry leaders make the nominations each year. Following a lengthy evaluation and interview process, the editors select the 50 individuals who exemplify the best of industry that year, and who have something to offer other remodelers in proven practices. Inductees "stood up to detailed examinations of their businesses and their books, and they all demonstrated an admirably deft ability to restructure, retrench, and flat-out hustle to remain viable in a challenging economic climate," according to REMODELING. Hans Keyner's team exemplifies the people you want working in and on your house. Licensed, bonded and insured, Keyner Construction's dedicated team has the range of experience to make you fall in love with your home again.
